# RULE OF 3 IN WRITING (PARALLEL CONSTRUCTION)

- The rule of three is a writing principle based on the idea that humans process information through pattern recognition. As the smallest number that allows us to recognize a pattern in a set, three can help us craft memorable phrases.
- “***Friends, Romans, Countrymen. Lend me your ears.***” - Shakespeare’s Julius Caesar
- “***Be sincere, be brief, be seated.***” (Franklin D. Roosevelt)
